

預防登革熱

連日豪雨後，氣溫急速上昇，民眾輕忽之積水容器俱增，有鑑於去年登革熱疫情蔓延，台南市環保局提醒全體市民朋友，徹底檢查房屋內、外及空地周邊是否有積水容器，即時清除登革熱孳生源，確實做好自我檢查，容器減量 13 口訣，讓您輕鬆杜絕孳生源。

容器減量 13 口訣如下：「一品(瓶瓶罐罐)、二胎(廢輪胎)、三綱(水缸)、四喜(廢洗衣槽、洗衣機)、五龍(保麗龍)、六合(糖果盒)、七馬(廢棄馬桶)、八部(帆布)、九族(水族箱)、十全(廢棄安全帽)、十一郎(廢棄檳榔攤)、十二塔(冷卻水塔)、十三子(桶子、盆子、盤子、杓子)」，請大家仔細檢查這些地方，相信您也能為登革熱盡一份心力。

環保局長張皇珍呼籲，免於登革熱威脅，滅蚊清理孳生源四動作：「巡、清、倒、刷」。預防登革熱最重要的是靠民眾主動積極清理居家附近容易積水的水桶、廢輪胎、水溝、地下室、廢棄容器…等登革熱病媒孳生的溫床，對於家裡插花容器、花盆底植栽水盤，宜每周刷洗乾淨並換水，水缸、水槽、水表凹陷處等都要隨時把積水清掉，不用時宜倒置或加蓋，居家內外不使用的積水容器應清除乾淨且盡量避免貯水，蚊子沒地方繁殖，無法傳播登革熱，政府不必大量噴殺蟲劑是環保又保持健康的良方。

登革熱對民眾的健康威脅很大，請大家馬上動手清理住戶週遭的環境，尤其是屋後溝、防火巷等地方更應仔細清理檢查。打掃後，若有大量垃圾無法處理，可依居住地致電各區隊。[台南市政府環保局各區域服務資訊](#)

Prevention of dengue fever

After continuous heavy rain days and with the temperature risen sharply, people who overlook the water container are increased. Review of the spread of dengue fever last year, Tainan City Environmental Protection Bureau is to remind all citizens who have to be a thorough examination of the inside, the outside of the house and open spaces surrounding whether there is water containers with wet. Instant clear dengue breeding source and exactly do self-examination.

You can easily eliminate breeding sources to exactly check and clean the 13 places:

The first for product (bottles and jars),

The second for child (waste tires),

The third for bonds (tank),

The forth for waste or laundry tub, washing machine

The fifth for styrofoam,

The sixth for candy box

The seventh for abandoned toilet

The eighth for canvas

The ninth for aquarium,

The tenth for abandoned helmet

The eleventh for abandoned betel nut

The twelfth for towers (cooling towers)

The thirteenth for children (barrel son, pot, dishes, ladles) and following the four steps "patrol, clear, pour, brush", you could prevent the dengue infection.

Please double-check these above places and exactly to clean well, we believe you can make a contribution to dengue prevention.

Dengue fever is with great health threat to people, please immediately clean up the environment around the household, especially ditch behind the house and everywhere was supposed to be carefully checked. After cleaning, if there was a lot of junk which was unable to be handled by yourself, you could contact the district cleaning squadron to clean the garbage.
